ONLY for Dragon NaturallySpeaking version 12

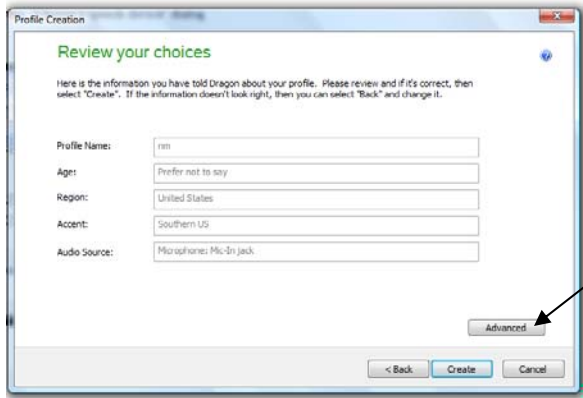

1. When creating your User Profile, in the Profile Creation dialog box of 'Choose your accent' (as shown below), make your selection (as you see, I selected 'Southern US').

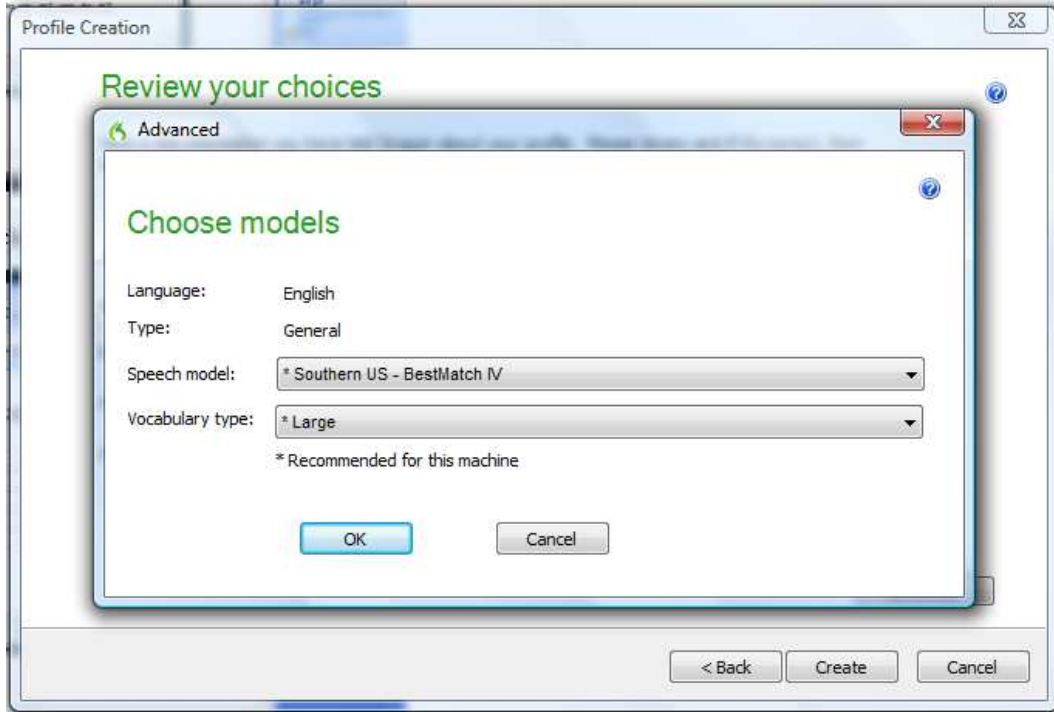

2. In "Choose a speech device" dialog box, make your selection and click 'Next'

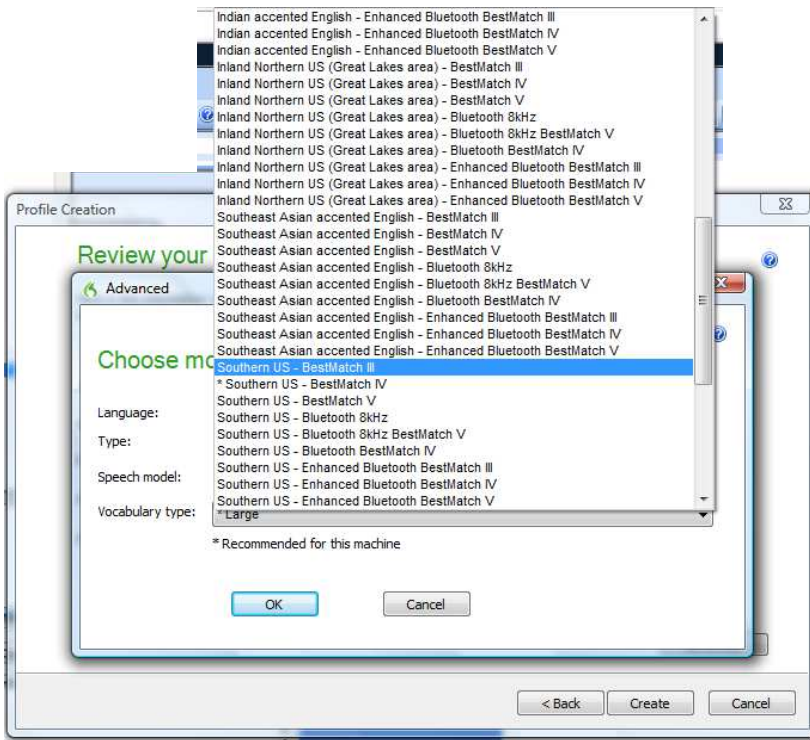

3. In 'Review your Choices' dialog box, select ADVANCED (which is close to bottom right corner).

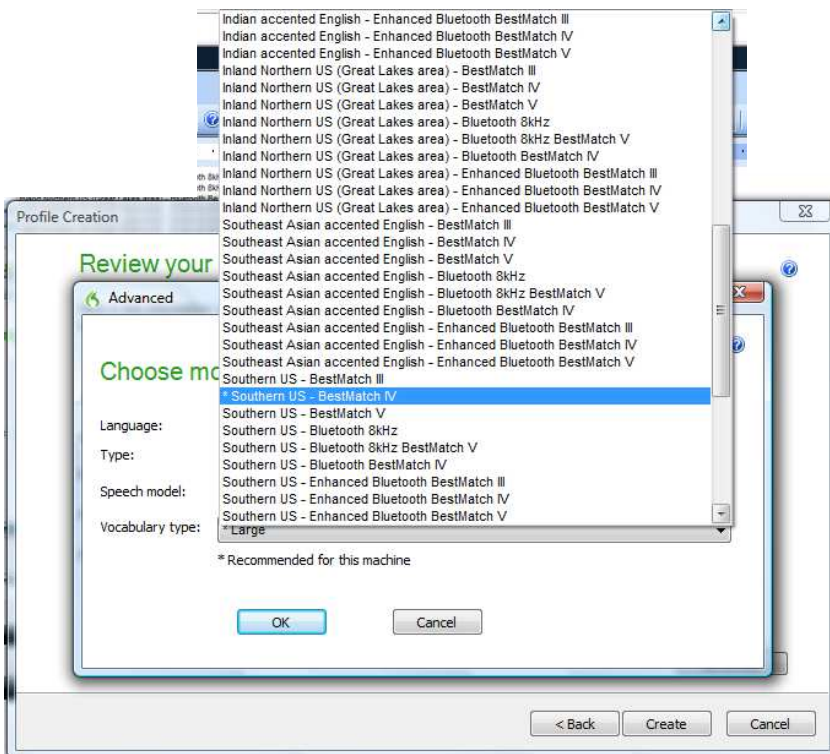

4. As shown below, you shall see the 'Advanced...Choose models' dialog box. DO NOT SELECT the default UNLESS it shows "...BestMatch III" OR "...BestMatch IV".

5. USE THE 'down arrow' on Speech Model selection to choose "...BestMatch III" which is shown in the next screen shot OR "...BestMatch IV" which is shown in the screen shot in #6.

6. OR select "...BestMatch IV" which is shown in following screen shot.

7. Then click OK.

8. When beginning to use Dragon...

*Remedy for Dragon Dictation Box voluntarily appearing...

In the Dragon Bar, go to Tools, Options, Miscellaneous, uncheck 'Use Dictation Box for Unsupported Applications'.

Click Apply, OK.

You shall still be able to say 'show dictation box' whenever you wish.

9. **AND** follow **MathTalk/ScientificNotebook 5.5 Install Instructions for Dragon, IV, A. Configure NaturallySpeaking.**
